

## **FIND-A-GRAVE**

Genealogist Russ Worthington will present a program on "Find-A-Grave", a website that contains millions of photographs and grave records for people around the world. Russ has visited hundreds of cemeteries in New Jersey and the northeast and is an experienced user of "Find-A-Grave". He frequently contributes to the site by providing digital photographs of headstones and information. Russ will present a digital slide show of what Find-A-Grave has to offer and how to use it as a tool for research and obtaining information.

The program is sponsored by Washington Township Historical Society and will be held at the museum on September 20 for the public and September 21 for historical society members. The program starts at 7:30pm both evenings and is the same each night. The museum is located at 6 Fairview Avenue in the center of Long Valley. Parking is available nearby at Columbia Trail on Schooley's Mountain Road. All are welcome; admission is free.
